

Mr. Bancroft's Oration.

Everett had lived, we suppose neither... Stanton would have had the honor of death.

A man may be very able, and yet not appear to advantage in a show oration on a commemorative occasion.

In one respect Mr. Bancroft was in a false position. The chief thing for which President Lincoln will be remembered being his Proclamation of Emancipation.

In some historical speculations, afterwards published in his "Miscellanies," he had inveighed with great pomp of words against human slavery in the ancient republics.

Even in so simple a thing as the form of words by which he accosts his audience, he does not avoid his habitual bad taste.

Very respectfully, your obedient servant, JOHN W. GEARY, Harrisburg, February 10, 1866.

The Interests of American Industry.

LETTER FROM MAJOR-GENERAL JOHN W. GEARY, IN FAVOR OF PROTECTION TO EVERY BRANCH OF HOME LABOR.

The following letter from Major General John W. Geary will be read with marked attention by the people of the entire Commonwealth.

Sirs—As I am constantly in receipt of many letters, asking substantially the same question, namely, whether I am in favor of a protective tariff, I desire to avail myself of your widely circulated journal for the purpose of briefly expressing my opinion upon this subject.

I am in favor of the encouragement of Home Industry by extending the same protection to American manufacturers as will make us entirely independent of any foreign country.

By means of a protective tariff we develop the resources of our country, increase the value of property, open up new sources of wealth, multiply the pursuits of industry, create a good market for all kinds of agricultural products.

It would seem that we possess all of the elements to make us a great and independent nation. To ignore the existence of these great natural advantages is to blind to our own interests.

To sum up this great question, in brief, I think that protection to every branch of our industry is imperatively demanded and ought to be advocated by every true friend of our country.

Very respectfully, your obedient servant, JOHN W. GEARY, Harrisburg, February 10, 1866.

CITY INTELLIGENCE

(For Additional Local Items see Third Page.)

INAUGURATION OF THE HOME FOR LITTLE WANDERERS.—EMERSEY MERRINS—GRAND SUCCESS.—It is doubtful whether so large an audience ever assembled in Concert Hall as that which convened there last night to witness the ceremonies connected with the inauguration of the Home for Little Wanderers.

Ex-Governor Pollock, on taking the chair, made some appropriate remarks in regard to the object and origin of the Home for Little Wanderers, paying a well-merited tribute to its Superintendent and originator, Mr. Seigfried.

Permanent boarders.....40 Transient boarders.....25 Aggregate.....65

By permanent boarders are meant those children who receive all their meals and are lodged at the Home. Transient ones are the children of industrious mothers who find occupation abroad during the day, and who, but for the admirable arrangements of the Home in taking care of their children during their absence, would be unable to earn a subsistence.

It would seem that we possess all of the elements to make us a great and independent nation. To ignore the existence of these great natural advantages is to blind to our own interests.

Very respectfully, your obedient servant, JOHN W. GEARY, Harrisburg, February 10, 1866.

A NEW BUSINESS.—Yesterday an advertisement appeared in one of the morning dailies, couched in the following language:

BY DIVORCE PROCEEDED WITHOUT EXPENSE, and speedily. No charges for advice. All communications strictly confidential. Address, "James D. Sandford, Philadelphia Post Office."

Naturally this created some sensation among the class of citizens who desire to be relieved from the bonds of matrimony, inasmuch as it was apparently a cheap investment. The divorce was to be obtained without any expense to the petitioner, and what Mr. Sandford did he did quickly.

PHILADELPHIA, February 12, 1866.—Your note of the 10th instant, to Mr. Sandford is before me. I have read it, and I am glad to hear that you are a party to the same.

Perhaps, in the absence of further developments in the ghost business, and a limited supply of haunted houses, the community can find employment in sending to Indiana for divorces.

ASH WEDNESDAY.—To-morrow will be Ash Wednesday. This day being the commencement of the forty days fast, was called by the Fathers of the Church *caput jejunii* (beginning of the fast).

Great advantages are offered to the citizens of Philadelphia by the opening of the Market Street Tea House for the sale of Tea and Coffee exclusively.

LAKE-KROMER.—On the 8th instant, by Rev. Charles D. Cooper, JAMES LAKE, of Baltimore, formerly of Middletown, Del., and MAGGIE A. daughter of the late Emanuel G. Kromer.

BOOTH-CASBARY.—On the 20th day of January, 1866, at the residence of Rev. J. J. Booth, in the city of Philadelphia, by Rev. Kingston Goddard, D. D. JAMES R. BOOTH to LIDA M. CASBARY, both of Philadelphia.

DIED. BROWN.—On the evening of the 11th instant, WILLIAM BROWN, aged 51 years.

RETT.—On the 10th instant, MARTHA C., wife of Jonathan Rett, aged 45 years.

CAPEWELL.—On the 10th instant, SARAH L. CAPEWELL, beloved wife of John Caspewell, Sr., in the 64th year of her age.

CONNELL.—On the 10th instant, Mr. JOHN CONNELL, in the 64th year of his age.

HELLERMAN.—On the 12th instant, CAROLINE HELLERMAN, daughter of John and Catharine Hellerman, in the 81st year of her age.

HOGUE.—On the 10th instant, Mrs. MARY HOGUE, aged 90 years.

POLLSON.—On the morning of February 8, 1866, CHARLES A. POLLSON, aged 77 years.

O'BRIAN.—On the 11th instant, ROBERT O'BRIAN, aged 45 years.

CORNER BORDERS OR ANGULAR BITT Holders may be fitted to any brace and bit without altering the use of the latter.

PATENT STOVE PLATE LIFTERS, WHICH are also adapted to other household uses. Several patterns, and also the usual kind, are for sale by THOMAS & SHAW.

STEWED FRUITS AND SAUCES, PACKED in lumpy form, etc. If passed through the Fureka Sifter, are made in good manufacture, and are very pure and safe to eat.

TERRIBLE EXPLOSION.—Yesterday, at about half-past two o'clock, Mr. Bernard Brantless, residing in the northern portion of the city, returned home and requested his wife to give him a sum of money which he had placed in her hands for safe-keeping.

She informed him that it was not in her power to give up the money, as she had expended it in buying a new set of furs. Just then there occurred a most dreadful explosion of gas on the part of Mr. Brantless, who had designed the money for the purchase of an excellent suit at TOWER HALL, No. 618 MARKET STREET, BENNETT & CO.

MACHINERY PERFECTED.—In all the wide range of human invention the genius of man has never been more usefully called into operation than in bringing to perfection a durable, cheap, efficient, and simple Sewing Machine. Applying these essential qualities of the Sewing Machine to the Florence Sewing Machine, we consider that its projectors have a perfect right to claim for it, in the highest degree, simplicity with durability, and the further quality of a greater range of operation than any other competitor, whilst it can be easily understood by all. Besides embodying all the advantages of other machines the Florence possesses many improvements over any and all of them, such as making four different kinds of stitches, a self-adjusting tension adapted to all kinds of work, and the facility of making and repairing the same always in exact proportion to the size of the bobbin, the peculiar method of taking up the slack thread, the excellent and exclusive feature of adjusting the length of the stitch, and the direction of the same, denominated the reversible feed-motion, which enables the operator, by simply turning a thumb-screw, to have the needle either to the right or left, to stay any part of the seam or fasten the ends of seams without turning the fabric. A careful examination of the construction and workings of the Florence Sewing Machine will convince any one of its superiority, and we would advise our readers who are desirous of having a gift that will be most acceptable to the wife and mother, and which will be a blessing to the household, to purchase the Florence Sewing Machine—a gift of beauty and utility that will last a lifetime. Every machine sold is warranted to give satisfaction, and instructions given without charge. The Company are now behind their orders.

COUGHS, COLDS, AND CONSUMPTION.—Thirty years' experience, and the testimony of thousands who have been cured by its use, prove that Jayne's Expectant is, without exception, the most reliable remedy in the world for Coughs, Colds, Asthma, Bronchitis, Consumption, Pleurisy, Croup, Whooping Cough, Spitting of Blood, and all Pulmonary Complaints. Prepared only at No. 242 Chestnut street.

GREAT ADVANTAGES are offered to the citizens of Philadelphia by the opening of the Market Street Tea House for the sale of Tea and Coffee exclusively.

STEWED FRUITS AND SAUCES, PACKED in lumpy form, etc. If passed through the Fureka Sifter, are made in good manufacture, and are very pure and safe to eat.

How HE CAUGHT COLD.—An eminent artist lately painted a snow storm so naturally that he caught a bad cold by sitting too near his coat off. If you would avoid taking cold, have your garments kept in good manufacture, and are very pure and safe to eat.

FUNERAL OF A SEA CAPTAIN.—The funeral of Captain Joseph H. Cox, late master of the brig Theodoros, will take place to-morrow afternoon at 2 o'clock, from the residence of the undertaker, Mr. Cyrus Horne, Eleventh street, above Market.

THE WATER IN THE SCHUYLKILL SUBSIDING.—The fears entertained that the river Schuylkill would be visited by another freshet are subsided, and the water has done the same thing.

How HE CAUGHT COLD.—An eminent artist lately painted a snow storm so naturally that he caught a bad cold by sitting too near his coat off. If you would avoid taking cold, have your garments kept in good manufacture, and are very pure and safe to eat.

How HE CAUGHT COLD.—An eminent artist lately painted a snow storm so naturally that he caught a bad cold by sitting too near his coat off. If you would avoid taking cold, have your garments kept in good manufacture, and are very pure and safe to eat.

MATTERS OVER THE RIVER.

CULVERTING.—The prolonged rain storm of the last few days, added to the melting of a great body of snow, has caused considerable damage to property in Camden. The best foundation for a culvert is a firm, level, and water-soaked. Aside from this, the health and reputation of the city must suffer in the estimation of strangers, who are often deterred from settling among us, or from investing in real estate.

A CURIOSITY SHOP.—Visitors to Salem will be well repaid by a visit to the shaving and hair-dressing establishment of John Bailey, near the Nelson House, not only for the luxuries derived from his art, but to look upon the store of curiosities collected. Mr. Bailey is quite an antiquarian in taste, and his collection contains many of the most interesting trophies, historical reminiscences, rare old documents, ancient books, magazines, and papers of the sixteenth and seventeenth centuries, including some of the first papers published in the colonies.

COURT BUSINESS.—The criminal business of the present term of our County Court closed last week with the following additional sentences: Frederick Spooler, selling liquor on Sunday, thirty dollars and costs; Alonzo Brower and Charles Hertzler, convicted of passing counterfeit money, the collector year, and the second year for four years and six months; William Bourroughs, Aaron Peterson, John Osborn, Josiah White, and Frederick Munter, fined each ten dollars and costs, for assault and battery; Josiah Cashat, convicted of passing counterfeit money, the collector year, and the second year for four years and six months; William Cory, for compounding a felony, was sentenced to pay a fine of thirty-five dollars and costs; John and Jesse Peterson, for setting a highway robbery, were each fined ten dollars and costs; Elizabeth Ennis, for burglary, was convicted, and sentence deferred.

NEW PRISON.—A Committee appointed by the Board of Chosen Freeholders of Salem county, to visit adjacent States, with the view of ascertaining what new improvements have been made in the construction of prisons, have returned from their recent visit to the prison situated on the corner of the two main streets, and which gives such a gloomy appearance to the town. It is to be torn down, and a new one erected on the lot north of the Court House. When the old one building, now occupied for that purpose, is removed, and handsome stores substituted, Salem will present quite an attractive appearance.

SANITARY AID.—The recent heavy rain has removed the filth and garbage from our streets to a great extent, at least quite as effectually, and a little more promptly, than our scavengers. We could have no better sanitary aid than that which is afforded by the rain. It is the proper time for the Sanitary Committee to enforce such measures as would keep them so. It is also time to commence the removal of all obstacles to general health, such as have been contemplated by the Committee.

RAILROAD ACCIDENT.—On Monday morning, the 6 o'clock way train from New York, when near South River, ran off the track. The locomotive, and the engine, and the cars, were precipitated some seven or eight feet down an embankment, seriously damaging the engine (No. 15), and two or three cars. Fortunately no person was seriously hurt. It was some time before the track could be cleared of the wreck, and several other trains were detained in consequence.

FIRE AT A SLAUGHTER-HOUSE.—Last evening a slight fire took place at Hoffman's slaughter-house, situated at Richmond and Ann streets. No material damage was done, owing to the prompt action of the neighboring fire companies.

How HE CAUGHT COLD.—An eminent artist lately painted a snow storm so naturally that he caught a bad cold by sitting too near his coat off. If you would avoid taking cold, have your garments kept in good manufacture, and are very pure and safe to eat.
